

NECD policies and measures database ver. 2, Sep. 2024

This database contains policies and measures (PaMs) reported by EU Member States following European Commission Implementing Decision (EU) 2018/1522 of 11 October 2018 laying down a common format for national air pollution control programmes under Directive (EU) 2016/2284 of the European Parliament and of the Council on the reduction of national emissions of certain atmospheric pollutants.

This database will be updated on a quarterly basis. It is important to note that the database only contains latest data that has been reported by Member States using the PAM-tool: <https://webforms.eionet.europa.eu/>. The completeness and accuracy of the data depends on the quality of reporting by each country .
