

## Monitoring of CO2 emissions from heavy-duty vehicles, 2023

Regulation (EU) 2018/956 requires EU Member States and manufacturers to report data related to heavy-duty vehicles.

Member States report trucks, buses and trailers registered in their territory.

Manufacturers report trucks of specific types that are subject to certification requirements.

The reporting periods are annual and run from 1st July to 30 June the following year. One exception was the first reporting which covered 1st January 2019 to 30 June 2020.

In addition, the dataset covers the United Kingdom and Norway who reported data in line with the Regulation (EU) 2018/956 (the UK was subject to the Regulation in the reporting period 2019-20).
