

## [EU SDG 02\_60] Ammonia emissions from agriculture

This indicator is based on national total emissions officially reported to the EEA and the UNECE 'Co-operative programme for monitoring and evaluation of the long-range transmissions of air pollutants in Europe' (EMEP) Air Convention. For the 27 EU Member States, the data used are consistent with the emission data reported by the EU in its annual submission to the Air Convention (Convention on Long-Range Transboundary Air Pollution).
