

## EEA marine assessment areas buffer zones

These datasets present three buffer zones used to calculate statistics on the Marine Protected Areas (MPA) coverage in EEA marine assessment areas of EU's marine waters.

The three buffer zones layers correspond to 'Near shore MSFD Region/Subregion boundary zone (0-1 nautical miles)', 'Territorial MSFD Region/Subregion boundary zone (1-12 nautical miles)' and 'Offshore MSFD Region/Subregion boundary zone (beyond 12 nautical miles to the edge of EU waters)'.
