

WISE WFD Reference Spatial Datasets reported under Water Framework Directive 2022

The dataset contains information on the European river basin districts, the river basin district sub-units, the surface water bodies and the groundwater bodies delineated for the 3rd River Basin Management Plans (RBMP) under the Water Framework Directive (WFD) as well as the European monitoring sites used for the assessment of the status of the above mentioned surface water bodies and groundwater bodies.

The dataset compiles the available spatial data related to the 3rd RBMPs due in 2022 (hereafter WFD2022). See <http://rod.eionet.europa.eu/obligations/780> for further information on the WFD2022 spatial reporting.
