

## Riparian Zones

The Riparian Zones provides detailed information on the state and characteristics of riparian zones across Europe in a variable buffer zone of selected rivers (Strahler levels 2-9 derived from EU-Hydro).

The product has a six years update cycle and is available for the 2012 and 2018 reference years including the change layer. Besides the land cover and land use layer the Riparian Zoned product for the 2012 reference year has two additional layers: Delineation of Riparian Zones and Green Linear Elements.

The Riparian Zones is part of the European Union's Copernicus Land Monitoring Service.
