

N2K 2006 (vector), Europe, 6-yearly, Jul. 2021

This metadata refers to CLMS N2K 2006 product, the Copernicus Land Cover/Land Use (LC/LU) status map, with 2006 as reference year for the classification, tailored to the needs of biodiversity monitoring in selected Natura2000 sites: 4790 sites of natural and semi-natural grassland formations listed in Annex I of the Habitats Directive, including a 2 km buffer zone surrounding the sites and covering an area of 631.820 km² across Europe (EU27, the United Kingdom and Switzerland). The product includes three Emerald sites in Switzerland. LC/LU has been extracted from VHR satellite data and other available data.

This metadata specifically refers to the revision of the 2006 N2K status map carried out during the production of the 2018 update.

The production of N2K updates was coordinated by the European Environment Agency (EEA) in the frame of the EU Copernicus programme.

You can read more about the product here: $\underline{\text{https://land.copernicus.eu/en/products/n2k/n2k-2006}} \; .$

Access constraints	Other restrictions
Other constraints	no limitations to public access
Use constraints	Other restrictions
Other constraints	Access to data is based on a principle of full, open and free access as established by the Copernicus data and information policy Regulation (EU) No 1159/2013 of 12 July 2013. This regulation establishes registration and licensing conditions for GMES/Copernicus users.
	Free, full and open access to this data set is made on the conditions that:
	When distributing or communicating Copernicus dedicated data and Copernicus service information to the public, users shall inform the public of the source of that data and information.
	Users shall make sure not to convey the impression to the public that the user's activities are officially endorsed by the Union.
	Where that data or information has been adapted or modified, the user shall clearly state this.
	4. The data remain the sole property of the European Union. Any information and data produced in the framework of the action shall be the sole property of the European Union. Any communication and publication by the beneficiary shall acknowledge that the data were produced "with funding by the European Union".
