

Urban Atlas Land Cover/Land Use 2012 (vector), Europe, 6-yearly, Jan. 2021

The European Urban Atlas provides reliable, inter-comparable, high-resolution land use and land cover data for 785 Functional Urban Area (FUA) for the 2012 reference year in EEA38 countries (EU, EFTA and Western Balkan countries as well as Türkiye) and United Kingdom. The spatial data can be downloaded together with a map for each FUA covered and a report with the metadata for the respective area.

Urban Atlas is a joint initiative of the Commission Directorate-General for Regional and Urban Policy and the Directorate-General for Defence Industry and Space (DEFIS) in the frame of the EU Copernicus programme, with the support of the European Space Agency and the European Environment Agency.

You can read more about the product here: <https://land.copernicus.eu/en/products/urban-atlas/urban-atlas-20> 12.

Explanation	See the referenced specification

Statement	<p>The Urban Atlas is mainly based on the combination of (statistical) image classification and visual interpretation of Very High Resolution (VHR) satellite imagery. Multispectral SPOT 5 & 6 and Formosat-2 pan-sharpened imagery with a 2 to 2.5m spatial resolution is used as input data. The built-up classes are combined with density information on the level of sealed soil derived from the High Resolution Layer imperviousness to provide more detail in the density of the urban fabric. Finally, the Urban Atlas product is complemented and enriched with functional information (road network, services, utilities etc...) using ancillary data sources such as local city maps or online map services.</p> <p>During the mapping campaign for the update of Urban Atlas 2018, the LCLU status product of Urban Atlas 2012 was revised.</p> <p>Version 021 marks the new revised FUAs with the population estimates added as attribute Pop2012.</p> <p>Typology:</p> <p>11100 Continuous Urban Fabric (S.L. > 80%)</p> <p>11210 Discontinuous Dense Urban Fabric (S.L. : 50% - 80%)</p> <p>11220 Discontinuous Medium Density Urban Fabric (S.L. : 30% - 50%)</p> <p>11230 Discontinuous Low Density Urban Fabric (S.L. : 10% - 30%)</p> <p>11240 Discontinuous Very Low Density Urban Fabric (S.L. < 10%)</p> <p>11300 Isolated Structures</p> <p>12100 Industrial, commercial, public, military and private units</p> <p>12210 Fast transit roads and associated land</p> <p>12220 Other roads and associated land</p> <p>12230 Railways and associated land</p>
------------------	--

12300 Port areas

12400 Airports

13100 Mineral extraction and dump sites

13300 Construction sites

13400 Land without current use

14100 Green urban areas

14200 Sports and leisure facilities

21000 Arable land (annual crops)

22000 Permanent crops (vineyards, fruit trees, olive groves)

23000 Pastures

24000 Complex and mixed cultivation patterns

25000 Orchards at the fringe of urban classes

31000 Forests

32000 Herbaceous vegetation associations (natural grassland, moors...)

33000 Open spaces with little or no vegetations (beaches, dunes, bare rocks, glaciers)

40000 Wetland

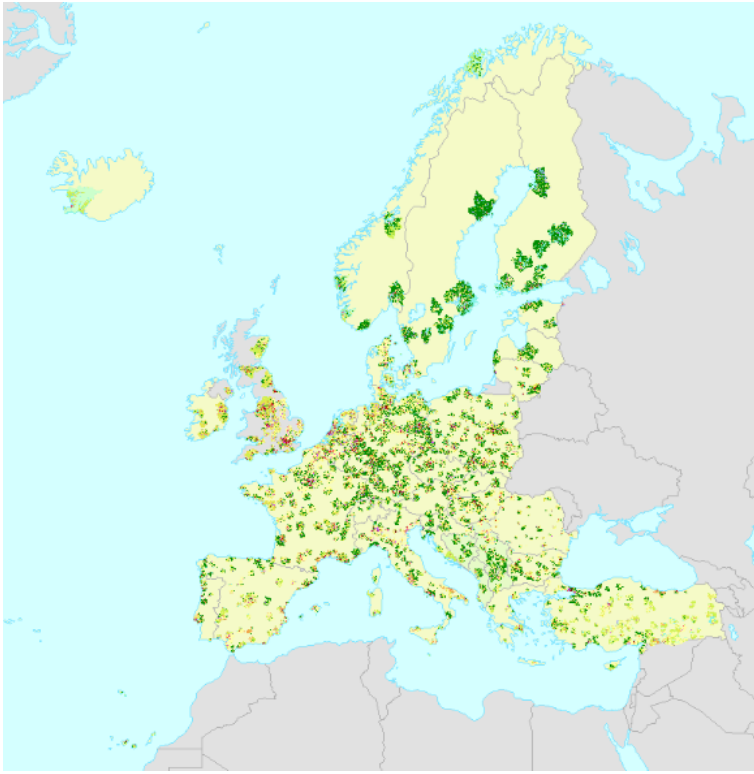

50000 Water bodies

External Quality control realized by IGNFI.
