

Institution	Roles and Responsibilities
Ministry of Environment	<p>National Focal Point to the UNFCCC and KP</p> <p>Coordination and implementation of the commitments and obligations of policies, measures and projections of greenhouse gas emissions under the UNFCCC, KP and legislative requirements of the European Commission</p> <p>Coordination of information and inputs from relevant ministries and institutions for reporting on policies and measures to reduce greenhouse gas emissions and for preparation and reporting on GHG emissions projections</p>
Slovak Hydrometeorological Institute – Emissions and Biofuels Department	<p>Preparation of projections of greenhouse gas emissions based on requirements of the MŽP SR and UNFCCC, KP and the EC legislation frame</p> <p>Preparation of projections of emissions for basic air pollutants according to the Directive 81/2001/EC on National Emission Ceilings (NECD) and actual requirements of the Convention on Long-Range Trans boundary Air Pollution (CTRLTAP)</p> <p>Preparation of National Reports of the Slovak Republic on Climate Change and Biennial Report of the Slovak Republic under coordination of the MŽP SR and in accordance with the requirements of the UNFCCC and the European Commission legal instruments</p>
Ministry of Finance	<p>Forecasts of macroeconomic indicators for the preparation of GHG Emission projections, cooperation in the climate finance policy frame</p>
Ministry of Economy	<p>Strategies, policies and measures on energy efficiency, renewable energy, biofuels and innovation</p> <p>Objectives and choice of instruments for their implementation in the area of energy efficiency, renewable energy, biofuels and innovation</p>
Slovak Innovation and Energy Agency	<p>Analysis and modelling of potential measures to improve energy efficiency. Modelling the effect of a selection of measures for the household sector, the sector of residential and public buildings</p> <p>Support programs and tools for achieving the objectives of increasing energy efficiency and renewable energy share on final energy consumption</p>
Ministry of Transport	<p>Strategies, policies and measures to reduce greenhouse gas emissions and basic pollutants from transport sector - road (passenger, freight), rail and water transport</p>
Ministry of Transport - Construction Division	<p>Strategies, policies and measures to reduce greenhouse gas emissions in building sector</p> <p>Modelling the effect of selection of mitigation measures for building sector</p>
Ministry of Agriculture and Rural Development	<p>Strategies, policies and measures for reducing greenhouse gas emissions from agriculture sector</p> <p>Strategies, policies and measures for reducing greenhouse gas emissions from, and enhancing sinks in, LULUCF (forest, cropland, grassland, wetlands, etc.)</p>
National Forestry Centre	<p>Cooperation in preparing projections of greenhouse gas emissions and sinks for forestry sector</p>
National Agricultural and Food Centre	<p>Cooperation in developing projections of greenhouse gas emissions and sinks for agriculture sector and LULUCF sector</p>
